*Schmincke Horadam w/c*

00323-xxxx \*

Trade Name: HORADAM, Ser. 14  
(118 shades)

X  
 Date prepared: 10.02.1994  
Rovd 02-08-00

Number of tones

**Section I: Ingredients**

General Composition: gum arabic, dextrin, sugary stuffs, glycerine, ox gall, preservatives, organic, inorganic pigments, lamp black and inerts, water.

**Hazardous Ingredients:**

Name: A) Cadmium pigments (in shades no.: 221, 223, 224, 225, 226, 227, 228, 230, 348, 349, 350, 365, 902, 903, 212, 213)  
 B) Soluble Manganese (in shades 355 and 905)  
 C) Soluble Cobalt (in shades 480, 487 and 488)

Further see Sec. III

**Section II: Physical and chemical characteristics**

Melting point:

Boiling point:

Decomposition P:

p. H. 5,5 - 7,5 (dilluted with water 1:10)

Solubility in water: mixeable in any desired ratio

Specific gravity (H<sub>2</sub>O = 1):

Physical condition: pasty (or solid)

Odour: neutral to little aromatic smell

**Section III: Hazards (signs and symptoms of exposure)**

Health hazards:

For A (above): Contains Cadmium Pigment. Do not spray apply. Not for use by children

For B (above): Contains soluble Manganese. Exposure may cause harm to the developing fetus. Avoid using if pregnant or contemplating pregnancy. Not for use by children.

For C (above): Contains soluble cobalt. Exposure may cause damage to the heart. Wash hands immediately after use. When using to not eat, drink or smoke. Not for use by children.

**Section IV: Precautions for safe handling (protective equipment)**

see Section III
