Issue Date: 05/27/94

Rev.: F
CIDS: 91210

SECTION 1 NAME & HAZARD SUMMARY

Material name: PROCION® ORANGE MX-2R

Hazard summary (as defined by OSHA Hazard Comm. Std., 29 CFR 1910.1200):

Physical hazards: None

Health hazards: Harmful pulmonary (lung) sensitizer

Read the entire MSDS for a more thorough evaluation of the hazards.

SECTION 2 INGREDIENTS

OSHA PEL

Azo dichlorotriazine reactive dye

Not listed

Ingredients not precisely identified are proprietary or nonhazardous.
Values are not product specifications.

SECTION 3 PHYSICAL DATA

Appearance and odor: Odorless powder
Melting point: No data
Vapor pressure (mm Hg at 20°C): No data
Vapor density (air = 1): No data
Solubility in water: 160 g/l
pH: 6.8 (at 10 g/l)
Specific gravity: No data
% Volatile by volume: Negligible

SECTION 4 FIRE AND EXPLOSION HAZARD DATA

Flash point: Not applicable
Autoignition temperature: No data
Flammable limits (STP): Not applicable

Extinguishing media:

Water fog, alcohol foam, carbon dioxide, dry chemical, halogenated agents.

Special fire fighting protective equipment:

Self-contained breathing apparatus with full facepiece and protective clothing.

Unusual fire and explosion hazards:

This product may form explosive dust clouds in air.

MSDS

SECTION 5 REACTIVITY DATA

Stability:

Stable under normal conditions.

Incompatibility:

Oxidizing agents.

Hazardous decomposition products:

Combustion products: Carbon dioxide, carbon monoxide. Nitrogen oxides, ammonia. Sulfur oxides. Halogen, halogen acids, possible trace amounts of carbonyl halide.

Hazardous polymerization:

Will not occur.

SECTION 6 HEALTH HAZARD ASSESSMENT

General:

Limited toxicity data are available on this specific product; this health hazard assessment is based on the results of screening tests.

Ingestion:

The acute oral LD50 in rat is above 5,000 mg/kg. Relative to other materials, this material is classified as "practically nontoxic" by ingestion.

Eye contact:

This material is nonirritating in rabbit eye irritation studies; no irritation is likely to occur after human eye contact.

Skin contact:

This material is nonirritating in rabbit dermal irritation studies. No irritation is likely to develop following contact with human skin.

Skin absorption:

This product will probably not be absorbed through human skin.

Inhalation:

This dye has caused respiratory allergy/sensitization and care must therefore be taken to limit exposure of operators to dust, aerosol mist or droplets during handling. Cough, tightness in chest, and/or asthmatic wheezing may be signs of respiratory allergy/sensitization.

Other effects of overexposure:

No other adverse clinical effects have been associated with exposures to this material.

First aid procedures:

Skin: Wash material off of the skin with plenty of soap and water. If redness, itching, or a burning sensation develops, get medical attention.

Page 3

SECTION 6 HEALTH HAZARD ASSESSMENT (continued)

First aid procedures (continued):

Eyes: Immediately flush with plenty of water for at least 15 minutes. If redness, itching, or a burning sensation develops, have eyes examined and treated by medical personnel.

Ingestion: Give 1 or 2 glasses of water to drink. If gastrointestinal symptoms develop, consult medical personnel. (Never give anything by mouth to an unconscious person.)

Inhalation: Remove victim to fresh air. If not breathing, give artificial respiration, preferably mouth-to-mouth. If breathing is labored, give oxygen. Consult medical personnel.

Note to physician: Persons with chronic pulmonary disease should receive a thorough medical evaluation before handling these dyestuff blends.

SECTION 7 SPILL OR LEAK PROCEDURES

Steps to be taken in case material is released or spilled:

Wear respiratory protection during cleanup. Sweep up and recover or mix material with a moist absorbent and shovel into a chemical waste container. Cover container and remove from work area. Wash residue from spill area with water and flush to a sewer serviced by a wastewater treatment facility. Use care to minimize the amount of colored material that reaches the sewer.

Disposal method:

Discarded product is not a hazardous waste under RCRA, 40 CFR 261.

Container disposal:

Empty container retains product residue. Observe all hazard precautions. Do not distribute, make available, furnish or reuse empty container except for storage and shipment of original product. Remove all product residue from container and puncture or otherwise destroy empty container before disposal.

SECTION 8 SPECIAL PROTECTION INFORMATION

TLV® or suggested control value:

No ACGIH TLV or OSHA PEL assigned. Minimize exposure in accordance with good hygiene practice.

Ventilation:

Use ventilation adequate to maintain safe levels.

Respiratory protection:

If needed, use MSHA-NIOSH approved respirator for dusts, mists and fumes whose TLV is greater than 0.05 mg/m³.

Protective clothing:

Gloves, apron and arm covers to avoid skin contact (see Section 9).

Eye protection:

Safety glasses with side shields.

Other protective equipment:

Eyewash station in work area.

SECTION 9 SPECIAL PRECAUTIONS OR OTHER COMMENTS

Special precautions or other comments:

Follow procedures specified in the National Fire Protection Association Codes and Standards for handling combustible dusts. Maintain good housekeeping to avoid dust buildup. Avoid skin contact; stains may be difficult to remove without injuring the skin. Minimize inhalation exposure to dusts. A sensitized individual should not be exposed to the product which caused the sensitization.

*****SECTION 10 REGULATORY INFORMATION**

TSCA (Toxic Substances Control Act) Regulations, 40 CFR 710:

All ingredients are on the TSCA Chemical Substance Inventory.

CERCLA and SARA Regulations (40 CFR 355, 370, and 372):

This product does not contain any chemicals subject to the reporting requirements of SARA Section 313.

The information herein is given in good faith
but no warranty, expressed or implied, is made.
