attention.
INGESTION: Obtain immediate medical attention. Induce vomiting only if indicated by the doctor. Give nothing by mouth to an unconscious person.

5. Fire-fighting measures

Closed containers exposed to the heat of a fire may lead to pressure rise and explode. For information on environmental and health risks, protection of the respiratory airways, ventilation and individual protective measures refer to the other sections of this sheet. Extinguishing measures: CO₂, foam, AFFF, chemical powder for flammable liquids. Water may not be effective to extinguish the fire, nevertheless it should be used to cool the containers exposed to flames and prevent fires and explosions. For leakage and spillage that have not caught fire, nebulized water may be used to disperse the flammable vapours and protect the people involved in stopping the leakage. Equipment: wear equipment complete with helmet and face shield and protection of the neck, self-breathing apparatus at pressure or demand, insulative jacket and trousers, with bands around the arms, legs and waist.

6. Accidental release measures

Exclude sources of ignition and ventilate the area. Cover with inert absorbent material. Collect spillages by means of spark-proof equipment. Use water only to remove residuals, so as not to run the risk of enter the sewer. Do not let the product dry. Contaminated clothes must be left to soak in water before washing. In order to choose safety measures and protection equipment, please see the other sections of this sheet. Spillage in waters: remove the liquid from the surface with flame-proof pumps or manual pumps or suitable absorbent material. Resort to sinking and/or dispersion of the product with suitable substances in open waters, if permitted by the law.

7. Handling and storage

Avoid the accumulation of electrostatic charges. Store the containers sealed and in a well-ventilated place. Vapours may ignite with explosion, it is therefore necessary to avoid accumulation keeping the windows and doors open, ensuring cross-ventilation. Without adequate ventilation, the vapours may accumulate at the bottom and ignite at a distance, if triggered off with the risk of flashback. Keep far away from sources of heat, sparks and naked flames. Do not smoke, use matches or lighters. Keep the containers earthed while decanting and wear antistatic boots. Vigorous

58686.TXT

stirring and flow through the pipings and equipment may cause the formation an accumulation of electrostatic charges due to the low conductivity of the product. In order to avoid the risk of fire outbreak and explosion never use compressed air during movement.

8. Exposure controls/personal protection.

Follow the good industrial hygiene practices adopting suitable individual protective measures such as gloves and overalls. Do not eat or smoke while handling the product. wash hands before eating and at the end of the work

Safety data sheet: AUXILIARY PRODUCTS 58686 - 3 -

shift. Periodic health controls are recommended at the discretion of the doctor.

9. Physical and chemical properties

Appearance	Liquid
Colour	Colourless
Odour	white spirit
Flash point	< 20ø
Solubility	Soluble in white spirit
Specific gravity.....	20ø 1,000 kg/l 0,1

10. Stability and reactivity

The product is stable in normal conditions of use and storage. When heated or in the event of a fire, carbonoxides may be released and vapours which are dangerous to health. The vapours may also form explosive mixtures with the air.

11. Toxicological information

This product is harmful. Even though it is not a probable way of exposure, ingestion may cause depression of the CNS, with headache, vertigo, muscular weakness, drowsiness, lack of coordination, weariness, blurred vision and speech. Ingestion may also cause abdominal pains with nausea and vomit.

12. Ecological information

Use according to good industrial hygiene practices avoiding dispersion of the product in the environment.

13. Disposal considerations

To discharge observing the local laws in force.

14. Transport informations

F HIGHLY FLAMMABLE

Safety data sheet: AUXILIARY PRODUCTS 58686 - 4 -
Printed on 3.09.2000 Revision n. 6 Dated 3.09.2000

- R11 HIGHLY FLAMMABLE.
- R65 HARMFUL: MAY CAUSE LUNG DAMAGE IF SWALLOWED
- S 2 KEEP OUT OF REACH OF CHILDREN.
- S 9 KEEP CONTAINER IN A WELL-VENTILATED PLACE.
- S16 KEEP AWAY FROM SOURCES OF IGNITION - NO SMOKING.
- S23 DO NOT BREATHE GAS/FUMES/VAPOUR/SPRAY (APPROPRIATE WORDING TO BE SPECIFIED BY THE MANUFACTURER).
- S24/25 AVOID CONTACT WITH SKIN AND EYES.
- S29 DO NOT EMPTY INTO DRAINS.
- S33 TAKE PRECAUTIONARY MEASURES AGAINST STATIC DISCHARGES.
- S43 IN CASE OF FIRE, USE ... (INDICATE IN THE SPACE THE PRECISE TYPE OF FIRE-FIGHTING EQUIPMENT. IF WATER INCREASES RISK, ADD "NEVER USE WATER").
- S45 IN CASE OF ACCIDENT OR IF YOU FEEL UNWELL, SEEK MEDICAL ADVICE IMMEDIATELY (SHOW THE LABEL WHERE POSSIBLE).
- S46 IF SWALLOWED, SEEK MEDICAL ADVICE IMMEDIATELY AND SHOW THIS CONTAINER OR LABEL.
- S62 IF SWALLOWED, DO NOT INDUCE VOMITING: SEEK MEDICAL ADVICE IMMEDIATELY AND SHOW THIS CONTAINER OR LABEL.

Contains:
NAFTA PETROLEUM

A semestral medical examination is required for paraffinic hidrocarbons present in this product, assimilable to petrol (see u.30 DPR 303/56)
Emission enclosed in class VTH schedule of D.M 12-7-90
