CERTIFICATION

Description of the FABER-CASTELL Grip 2001 and a Certification of the Safety of the product.

The Faber-Castell pencil Grip 2001 is a wood-cased pencil with a ceramic graphite lead. The ingredients of the lead are graphite, clay, fats or waxes. The pencil is coated with a water-based varnish. The dots of this pencil are water-based lacquer.

The pencil is a consumer good and not a dangerous product or chemical. Therefore a Safety Data Sheet isn't necessary under the existing regulations of the EU.

Faber-Castell takes heed of all laws and regulations during the production of products and for products.
