**Material Safety Data Sheet****21917-XXXX****Product : NEOCOLOR I metallic wax pastels crayons**

Page : 1/5

Validation date : 09/07/04

Version : US-7004-3.01

Replaces version : US-7004-2.01

**1. Product and Company Identification**PRODUCT TRADE NAME ( as labeled ) : **NEOCOLOR I metallic ®**MANUFACTURERS NAME : **CARAN d'ACHE SA**Address ( complete mailing address ) : **19, chemin du Foron ; CH-1226 THONEX-GENEVE**  
Phone number : **+41 22 869 01 01**  
FAX number : **+41 22 869 01 35**US Importer : **CARAN d'ACHE SA of SWITZERLAND Inc.**  
**38-52 43<sup>rd</sup> Street**  
**LONG ISLAND CITY, NY 11101**Phone number ( for additional information ) : **+1 718 482 75 00****2. Product Preparation and Hazardous Ingredients**Preparation composition : **Natural or synthetic waxes, paraffin**  
**Synthetic organic and inorganic pigments ( without**  
**heavy metals or other toxic chemical compounds )**  
**Natural or synthetic binders and additives**  
**Natural mineral fillers**  
Hazardous chemicals : **None**  
CAS numbers : **-**  
Percent\* : **-****NOTE : ACMI's AP Label : The product is certified by an authority on toxicology associated with a leading university to contain no materials in sufficient quantities to be toxic or injurious to the human body even if ingested**Others : **The product do not contain any suspected carcinogenic agents. This product's ingredients are not found in the Federal OSHA - regulated carcinogens register**

\* Not a required category

**NOTE : All required categories should be addressed. If any item is not applicable or no information is available, the space must be marked to indicate that.****This voluntary form is provide by Cal/OSHA to assist MSDS preparers and users. ## Material Safety Data Sheet

---

**Product : NEOCOLOR I metallic wax pastels crayons**

Page : 2/5

Validation date : 09/07/04

Version : US-7004-3.0)

Replaces version : US-7004-2.01

---

### 3. Health Hazard Information

#### SYMPTOMS OF OVEREXPOSURE

Inhaled : Not applicable

*NOTE : If heated to more than 400 °F, the product may form vapours or fumes which may irritate respiratory tract and cause coughing*

Contact with skin or eyes : Skin : No known effects from overexposure  
Eyes : Slight irritation

Absorbed through skin No known effects from overexposure

Swallowed No known effects

#### HEALTH EFFECTS OR RISKS FROM EXPOSURE

Acute : Oral LD 50 greater than 5000 mg/kg body weight

Chronic : None observed and none known

Others : None

---

### 4. First Aid and Emergency Procedures

General information : In case of clothes contamination, remove and wash off with water and soap

*NOTE : The product could be solvent soluble ( e.g. it shows a complete solubility in hydrocarbon solvent like white spirit ). In case of solvent use, caution with flammability risk and chemical resistance of synthetic material*

Eyes contact : Irrigate with fresh water immediately and continuously for 5 to 15 minutes keeping eye open  
Consult a specialized medical service

Skin contact : Wash skin with water and soap immediately  
In case of persistent irritation, seek medical advise

---

\* Not a required category

NOTE : All required categories should be addressed. If any item is not applicable or no information is available, the space must be marked to indicate that.

This voluntary form is provided by Cal/OSHA to assist MSDS preparers and users. Any format may be used as long as it contains all the required information.

## Material Safety Data Sheet

**Product : NEOCOLOR I metallic wax pastels crayons**

Page : 3/5

Validation date : 09/07/04

Version : US-7004-3.01

Replaces version : US-7004-2.01

**NOTE :** In case of burn by contact with molten material, consult a medical service

Inhaled : Not applicable

Swallowed : Consult physician

### 5. Fire and Explosion

Flash point ( °F ) : Not applicable

Flammable limits in air ( volume % ) : Not applicable

Auto ignition temperature ( °F ) : Above 400 °F

Fire extinguishing materials : Carbon dioxide or Dry chemical powder

Special fire-fighting procedures : None known

Unusual fire and explosion hazards : Organic material combustion may produce carbon dioxide and/or carbon monoxide

**NOTE :** If heated to more than 400 °F, the product may form vapours or fumes which may irritate respiratory tract and cause coughing

### 6. Measures in Case of Unintended Release

No special measures requested.

### 7. Handling and Storage

Ventilation and engineering controls : None should be needed

Respiratory protection ( type ) : None should be needed

Eye protection ( type ) : None should be needed

Gloves ( specify material ) : None should be needed

\* Not a required category

**NOTE :** All required categories should be addressed. If any item is not applicable or no information is available, the space must be marked to indicate that.

This voluntary form is provide by Cal/OSHA to assist MSDS preparers and users. Any format may be used as long it contains all the required information.

## Material Safety Data Sheet

**Product : NEOCOLOR I metallic wax pastels crayons**

Page : 4/5

Validation date : 09/07/04

Version : US-7004-3.0J

Replaces version : US-7004-2.0I

Other clothing and equipment : None should be needed

Work and hygiene practices : Avoid ingestion by eating, smoking or drinking while handling

Other handling and storage requirements : Keep away from heat and open flame

Protective measures during maintenance of contaminated equipment : Use of gloves recommended and wash off contamination with soap and water

### 8. Limitation of Exposition and Personal Protection Equipment

No special measures requested.

### 9. Physical and Chemical Properties

Vapor density ( air = 1 ) :	Not applicable
Melting point or range ( °F ) :	Range 250 to 300 °F
Boiling point or range ( °F ) :	Not applicable
Softening point or range ( °F ) :	Range 130 to 150 °F
Specific gravity ( water = 1 ) :	Range 1,20 to 1,64
Solubility in water :	Insoluble
Vapor pressure ( mmHg at 68°F ) :	Negligible
Appearance and odor :	Fatty solid sticks with soft marking texture, odorless - mild odor

### 10. Stability and Reactivity

Stability : Stable under normal conditions of use, handling and storage : at room temperature and, as general rule, not higher than 120 °F

Conditions to avoid : None known

Incompatibility ( material to avoid ) : Incompatible with oxidizing materials

Hazardous decomposition products : ( including combustion products ) None known

\* Not a required category

NOTE : All required categories should be addressed. If any item is not applicable or no information is available, the space must be marked to indicate that.

This voluntary form is provided by Cal/OSHA to assist MSDS preparers and users. Any format may be used as long it contains all the required information.

Hazardous polymerization : Will not occur

### 11. Information about Toxicology

No information available.

### 12. Information about Ecology

No information available.

### 13. Spill, Leak and Disposal Procedures

*Dispose of all wastes in accordance with federal, state and local regulations*

Spill response procedures : Not applicable  
(including employee protection measures)

Preparing wastes for disposal : Not applicable  
( container types, neutralization )

### 14. Transport Information

None

### 15. Regulatory Information

Labeled in accordance with EC-Directives and Standards EN71 concerning " Safety of Toys " In accordance to Toys classification, also labeled "Not recommended for children under 3 years old" No compulsory hazard warning label. Made in Switzerland in accordance with all national regulation

### 16. Other Information

The information above is based on our present state of knowledge. It should not therefore be construed as guaranteeing specific properties of the product described or their suitability for a particular application.
