Badger Air-Brush Co.

TATTOO TINK
10F2

MATERIAL SAFETY DATA

25327-XXXX

STATEMENT OF HAZARDOUS NATURE

Classified as hazardous according to the criteria of Worksafe

COMPANY DETAILS

Company: Badger Air-Brush Co.
Address: 9128 W. Belmont Ave. Franklin Park IL 60131
Fax Number: 847671-4352
Telephone Number: 847-678-3104

IDENTIFICATION

Product Name: Airbrush Ink (assorted Colors)
Badger Air-Brush Co. item numbers 22-3101, 22-1023, 22-3111, 22-1031, 22-1011, 22-1021, 22-1012, 22-1043, 22-1042, 22-1013, 22-1032, 22-1022, 22-1041, 22-1033

For use on skin as a temporary tattoo.

UN Number: None Allocated
Hazchem Code: None Allocated
Dangerous Goods
Class and Rub-Risk:3
Poisons Schedule:5
Packing Group:II

Physical Description/Properties

Appearance: Colored liquid with a thick density of various colors
Flash Point (°C): 15.5
Boiling Point: 78.3°
Specific Gravity: ~0.8
pH: Not pertinent
Vapor Density: >1

Solubility (Water): Miscible
Vapor Pressure: ~44mmHg
Volatiles: 100
Melting Point: -117.3°C

Ingredients

Chemical Entity:
Ethyl Cellulose
Water
Caster Oil
Dewaxed Shellac
Pigment
Sucrose Acetate Isobutyrate
Ethyl Alcohol

Cas No:
9004-57-3
7732-18-5
8001-79-4
9000-14-0
Various
34482-83-8
64-17-5

Made with FDA Approved Ingredients

TRANSPORTATION INFORMATION

UN Number: UN1263
Proper Shipping Name: Paint Related Material
Class:3
Packing Group:II

TATTOO PAINT 2 of 2

HEALTH HAZARD INFORMATION

Acute Effects

Ingestion: Irritating. May cause coughing, headache, dullness, abdominal spasm and diarrhea.

Eye: Liquid and vapor concentrations are irritating and may cause watering of the eyes.

Inhalation: High vapor concentration can be irritating to eyes nose and throat.

Skin Reactions: No adverse reactions, redness, discoloration or allergic reactions known or reported for exposure during or after 12-72 hour tattoo period.

Advice to Doctor: Treat Symptomatically.

FIRST AID PROCEDURES

Ingestion: Rinse mouth out with water ensuring that mouth wash is not swallowed. Give about 250ml(2 glasses) of water to drink. Do not attempt to induce vomiting.

Eye: Hold eyelids open and rinse the eye continuously with gentle streams of clean running water for at least 15 minutes.

Inhalation: Remove to fresh air. If breathing is labored, hold in a half upright position(this assists respiration). Seek medical attention for all but minor cases of over-exposure.

Skin & Allergic Reactions: Remove the tattoo with 70% Isopropyl alcohol cleaning pad or cottonball. For skin dryness apply non-allergenic moisturizing cream.

Advice to Doctor: Treat Symptomatically.

PRECAUTIONS FOR USE

Engineering Controls: Ventilation requirements depend on the quantity of product in use and the method of application. Ventilation should be sufficient to maintain vapor levels below the appropriate exposure standard. Use only in well-ventilated areas unless forced air ventilation is employed, this is due to fire hazard as well as risks from inhalation. Local exhaust ventilation areas use a facemask.

Personal Protection: requirements are dependent on working conditions, quantity of product in use and method of application. In confined or poorly ventilated areas use a facemask.

Flammability: Avoid all sources of ignition such as open flames, sparks, hot surface or burning cigarettes. The product may react with strong oxidizing agents such as liquid or powdered chlorine.

Body Paint Use: Do not spray directly in eyes, nose, mouth, lips or ears. Not recommended for face painting.

SAFE HANDLING PROCEDURES

Storage: Store in a flammable liquids area; designated no smoking, away from all sources of ignition, out of direct sunlight in a cool well-ventilated area. Protect containers against physical damage.

Spills and Disposals

Spills: Dam the spill. Cover with absorption such as earth, sand or a commercial oil absorber. Sweep up and collect in sealable containers. Dispose to approved landfill.

Disposal: dispose to controlled waste management.

Fire/Explosion: Containers may explode if heated. If possible remove from vicinity of fire. Otherwise keep containers as cool as possible by spraying with water, from a protected position. Water is not effective for fire fighting. Extinguish using foam, powder (bicarbonate or ammonium phosphate based) or carbon dioxide.
