Ideal for even the youngest artists, Tactilcolor has an airy, mousse-like texture that allows children to build up volume, model shapes, and create reliefs. The drip-free formula can be applied vertically or horizontally, in thick or thin layers, on virtually any surface or object (except fabric). Try using it on recycled materials such as plastic cups, cardboard plates, bottles, jars — you name it!

DUO AQUA WATER MIXABLE OILS

Duo Aqua Oils were developed by Holbein to offer the same qualities and characteristics of its Artists' Oils line while allowing soap-and-water cleanup. They are characterized by rich hues, high chroma, and 17 "Elite" colors that contain heavy metal pigments such as quinacridones, cadmiums, and cobalts. They offer excellent light-resistance and are safer than traditional oils for use in a studio or classroom.

BLICK®

STUDIO CANVAS

- The perfect marriage of quality and economy
- 10 oz finished weight, 100% cotton duck
- Stapled on the back to allow for frameless presentation

Forget about time-consuming preparation and get right to work! Blick Studio Canvas begins as a medium-weight (7 oz), pre-primed, 100% cotton duck canvas — then we add three additional coats of acid-free titanium gesso to create a smooth, archival surface with a 10 oz finished weight. Finally, we hand-stretch and hand-staple it around solid wood stretcher bars in your choice of three profiles — Traditional, Gallery, or Museum.

"I love using Blick Studio Canvases because they're lightweight and very durable. I usually paint on large canvases and often have to transport multiple paintings to venues and sometimes ship them. So it helps tremendously that they are so lightweight."

"I essentially do all my art shopping at Blick!

Not only do they offer great prices on top-of-the-line products, they're also attentive to customers and readily help people find what they need. Every time I've placed an order, my supplies have arrived in a timely fashion. I use Blick Premier Canvases as well as Blick Heavy Duty Stretcher Bars. The stretchers are my favorite on the market — they're well made and have withstood all the overseas shipping I do."

"I've used Blick Studio Artists' Boards for my oil paintings for more than five years now. They're sturdy, well built, and very reasonably priced. But my favorite thing about them — the thing that got me hooked — is the dramatic impact they make when the painting continues around onto the sides. It's a bold, modern look that appeals to many. With these boards it's simple to create a high-impact work that appears polished and is ready to hang without the need to think about framing."

Shape 6 Blade

Princeton™ Catalyst™ Blades & Wedges LONG handle

Not quite a brush, and not quite a palette knife, Catalyst tools are crafted from flexible silicone to give artists new tools for expression. Designed for use with heavy-bodied paints, Catalyst Blades and Wedges are at home with oils, acrylics, and water-mixable oils. And because they're heat-resistant, they excel with encaustics. Artists are using them with plaster, clay, and even frosting. Made of FDA-approved silicone, Catalyst Blades and Wedges are great for food crafting.

BLICK® MASTERSTROKE®

Blick® Masterstroke® Pure Hog Bristle Series LONG handle

This series is one of our finest brush lines, and quite possibly the finest pure Hog Bristle you'll find anywhere. The very best craftsmanship goes into each brush — from the top-quality, hand-selected white bristle to the accent of gold on the tip of the long, matte-black handles. The term "interlocking" refers to the abundance of natural flags, or splits on the tips of the bristles — deep flags that lock together and produce a smooth stroke even with heavy paints.

Blick® Maplewood Floater Frames

These unique frames are so named because the illusion they create is that your artwork is "floating" within the frame instead of being covered by it — perfect for displaying a gallery wrap canvas where no staples are visible. The canvas easily attaches to the stretcher bars from the back side with screws. Available in a variety of popular sizes to accommodate 3/4" deep or 7/8" deep canvases, these frames are made from genuine American maple hardwood. Their silky smooth feel and appearance complement your artwork beautifully.
